NUMBER OF SUPPORTED ENTERPRISES

Output indicator

Indicator Phrasing

INDICATOR PHRASING: number of supported enterprises

What is its purpose?

This indicator measures the number of newly created or existing enterprises that were supported by the project to start or improve their operations. It is a basic output level indicator showing the scale of the provided assistance.

How to Collect and Analyse the Required Data

Determine the indicator's value by:

- Reviewing regular project reports (e.g. reports to a donor)

- Reviewing monitoring data (e.g. attendance sheets, distribution lists, results of post-distribution monitoring, etc.

- Conducting interviews with randomly selected entrepreneurs verifying whether they received the reported assistance

The indicator's value includes all the newly created or existing enterprises that were supported by the project to start or improve their operations.

Disaggregate by

Disaggregate the data by whether the supported enterprise was new or existing.
