

WORKING ON CONFLICT AND FRAGILITY

Output indicator

Indicator Phrasing

INDICATOR PHRASING: Number of projects conducted by Tearfund or partners in fragile states that are explicitly focused on addressing identified drivers of fragility/conflict or on building local capacities for peace

What is its purpose?

To identify the extent to which Tearfund is intentionally addressing the drivers of conflict within its portfolio of activities in order to assess whether the fragile state corporate priority is being applied within Tearfund

How to Collect and Analyse the Required Data

Annual report from country offices to the Fragile States Unit as part of the Fragile State status check.

Disaggregate by

Country and Cluster

Important Comments

Projects should only be counted if there is a clear link within the project description and logic to conflict drivers that have been identified in the project problem or conflict analysis
