

## EXPERIENCE OF PREJUDICE

Impact indicator

---

### Indicator Phrasing

**INDICATOR PHRASING:** % of people that have experienced prejudice in the last 4 months due to their faith, race or ethnic group

### What is its purpose?

To assess the level of prejudice or discrimination within a community and help track the situation of those most excluded as a means of assessing the overall level of inclusion and integration with communities

### How to Collect and Analyse the Required Data

Usually gathered as part of a community survey.
