

## ACTIVIST FEEL SUPPORTED

Outcome indicator

---

### Indicator Phrasing

**INDICATOR PHRASING:** % of activists that report that they feel supported in their peacebuilding work

### What is its purpose?

To assess the effectiveness of spiritual, emotional and social support being provided to trained activists - usually as part of a nurturing process - so that they remain enthused, active and engaged.

### How to Collect and Analyse the Required Data

Usually collected as part of a regular survey/questionnaire with activists throughout the duration of the project. Analysis should look at trends overall across activists involved in the project as well as with individual activists

### Disaggregate by

Gender, faith group, location

---
